

How will the Customer Excellence Conference benefit me and my company?

The biggest benefit you'll receive from attending the conference is learning how to use the OSAS and TRAVERSE software to its fullest potential, and making you and your staff more productive. In addition to a full schedule of educational sessions, you may also visit the Learning Lab. The Lab will be staffed by the Open Systems technical support group, who will be able to answer the questions you may have on a one-on-one basis. We encourage you to bring a list of questions with you, so start your list today.

There will also be Open Systems partners showing their products and discussing their services in the exhibit area. In addition, your opportunity to meet and visit with other OSAS and TRAVERSE users is worth the trip in itself.
