

ACCOUNTS RECEIVABLE

ACCOUNTS RECEIVABLE

Manage your cash, know your customers, analyze performance and trends

A successful company needs to manage its cash flow and customer information effectively. TRAVERSE® helps you handle these tasks by tracking every aspect of your receivables in a timely manner. This vital management information—reported just the way you need it—gives you the power to improve the inflow of cash and capitalize on sales trends.

You'll be able to assess your financial position by producing timely reports. Identify your best customers and stay on top of sales trends. Evaluate your cash discounts program, and spot delinquent accounts early.

Data entry is efficient and flexible with horizontal transaction entry functions and quick-entry tables. You'll also save time with online invoicing and information windows.

Your customers will appreciate the professional-looking statements and invoices. And if they call with questions on their account, you'll be ready to help out. You can quickly view detailed customer information and payment history.
